

COMMENTS

The enclosed is responsive to the Examiner's Office Action mailed on April 29, 2010. At the time the Examiner mailed the Office Action claims 1-6, 8 and 10-34 were pending. By way of the present response the Applicant has: 1) canceled claims 1-6, 8 and 10-34; and, 2) added new claims 35 – 61. As such claims 35 – 61 are now pending. The Applicant respectfully requests reconsideration of the instant application and the allowance of claims 35 – 61.

The Applicant has canceled claims 1-6, 8 and 10 – 34 rendering moot the basis for the Examiner's rejection. The Applicant however offers the following comments concerning the new independent claims. The new independent claims are directed to a server/computer system relationship in which the server has the ability to: i) send a first image to a the computer system and command the computer system to render the first image; and, ii) send a second image to the computer system and command the computer system to store the second image locally on the computer system so that the server can, later on, command the computer system to render the second image (without having to resend the second image). Thus there are two rendering approaches in the server/computer system relationship.

The references of record do not appear to describe a server/computing system relationship with these specific features. Thus, the Applicant respectfully requests the allowance of new claims 35 – 61.

CONCLUSION

If there are any additional charges, please charge Deposit Account No. 02-2666. If a telephone interview would in any way expedite the prosecution of this application, the Examiner is invited to contact Robert B. O'Rourke at (408) 720-8300.
